

THERAPEDIC ADJUSTABLE CATALOGUE

ABOUT US

Enhancing Comfort. Supporting Care.

At Therapedic, we understand that quality sleep, comfort, and mobility play a vital role in overall health and wellbeing.

Our range of adjustable beds and specialised sleep systems is designed to support the evolving needs of aged care, home care, rehabilitation, and healthcare environments. Combining ergonomic design, dependable performance, and user-focused functionality, Therapedic products help promote comfort, independence, and dignity for those who rely on them every day.

Working closely with healthcare professionals and care providers, we are committed to delivering solutions that not only improve resident outcomes but also support caregivers through practical, reliable, and easy-to-use design.

Our Commitment

To provide trusted sleep and mobility solutions that enhance quality of life, support professional care, and deliver lasting value for healthcare communities.

BEDS & PARTNER BEDS

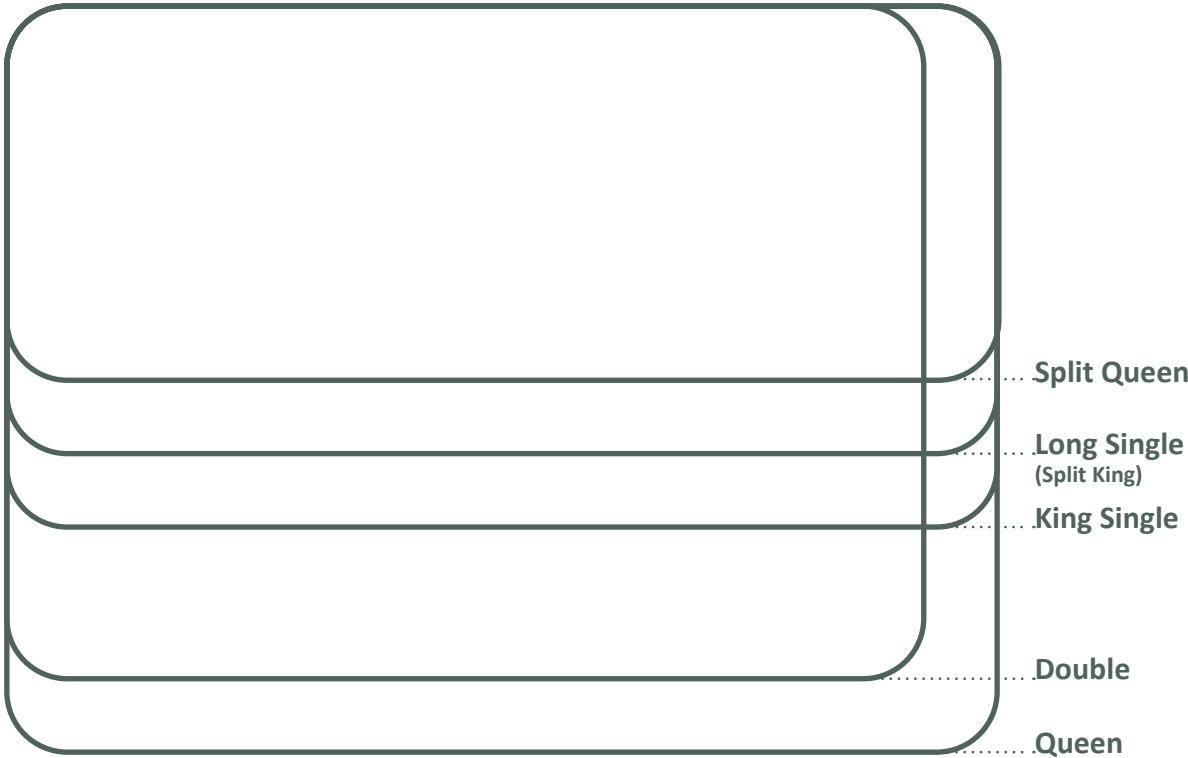

At Therapedic, we believe that supportive care should never come at the expense of comfort, style, or the feeling of home.

Our products are thoughtfully designed to combine advanced healthcare functionality with contemporary furniture aesthetics, allowing them to integrate seamlessly into a wide range of bedroom environments. With a selection of finishes, fabrics, and design options, Therapedic offers solutions that complement individual tastes and interior styles while providing the support needed for everyday wellbeing.

Whether enjoyed independently or shared with a partner, our adjustable sleep systems are created to promote comfort, independence, and healthier living—helping people feel at home while enjoying the benefits of personalised sleep and care.

390 ADJUSTABLE BED & POSITIONS

Designed for maximum comfort, this adjustable bed offers customizable positions for sleeping, lounging, and care. It provides targeted support to relieve pressure and improve circulation, effortlessly elevating your daily life.

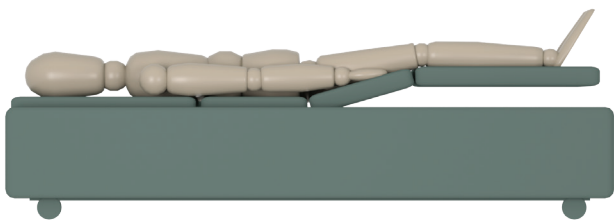

Anti Snoring Position

This position gently elevates your upper body to keep airways open and reduce snoring throughout the night. It promotes clearer breathing while maintaining optimal spinal comfort for a peaceful, uninterrupted sleep.

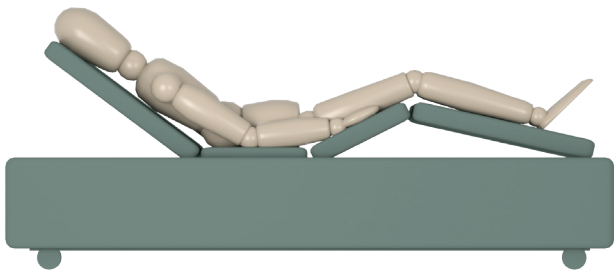

TV & Reading Position

Elevates your head and upper back to provide optimal neck support for comfortable lounging.

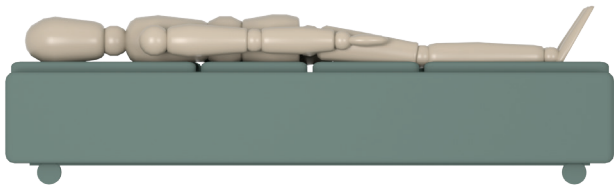

Circulation Position

Slightly elevates your legs to encourage optimal blood flow and reduce lower body swelling.

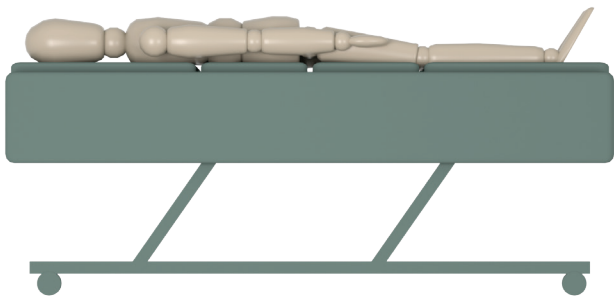

Zero Gravity Position

This position raises your head and legs above your heart to simulate weightlessness and relieve back pressure.

Flat Position

Returns the bed to a completely flat surface, ideal for traditional sleeping or effortlessly getting in and out.

Raised Position

Elevates the entire bed frame uniformly, easing transfers and making daily care routines far simpler.

BEDS & FUNCTIONS

Smart Features for Better Living

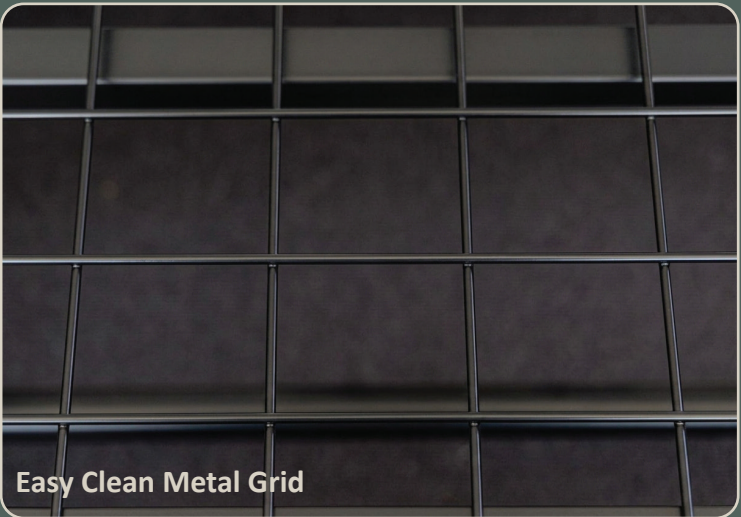

Engineered for effortless daily living, adjustable beds combine intuitive controls, smooth Hi-Lo height adjustment, and thoughtful safety features like guide rails and mattress retainers for unmatched convenience, care, and comfort.

Wired Remote

Lockable Wheels

Easy Clean Metal Grid

THERAPEDIC ADJUSTABLE BED & POSITIONS

Engineered for ultimate comfort, the Therapedic adjustable bed effortlessly adapts into multiple positions to relieve pressure points, improve circulation, and elevate your daily sleep and relaxation.

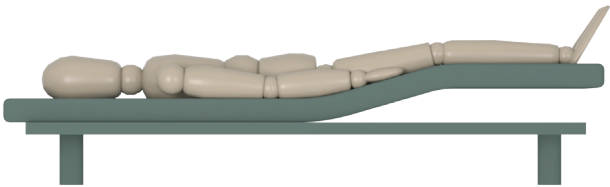

Anti Snoring Position

This position gently elevates your upper body to keep airways open and reduce snoring throughout the night. It promotes clearer breathing while maintaining optimal spinal comfort for a peaceful, uninterrupted sleep.

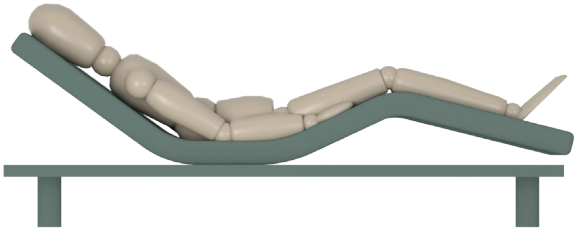

TV & Reading Position

Elevates your head and upper back to provide optimal neck support for comfortable lounging.

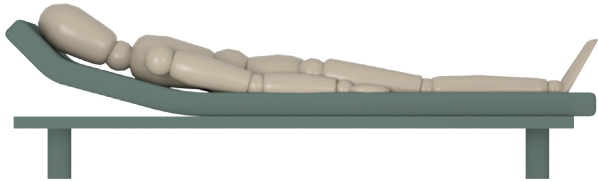

Circulation Position

Slightly elevates your legs to encourage optimal blood flow and reduce lower body swelling.

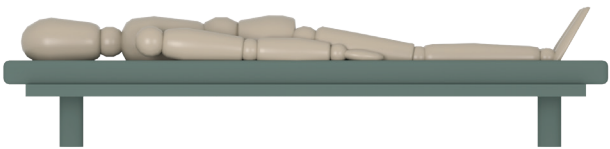

Zero Gravity Position

This position raises your head and legs above your heart to simulate weightlessness and relieve back pressure.

Head Tilt Position (Theramotion Advance Only)

Adjusts the head section forward and upward independently from the backrest. This targeted movement fills the gap beneath the neck and provides optimal cervical support, allowing you to comfortably read, watch TV, or relax without straining your neck.

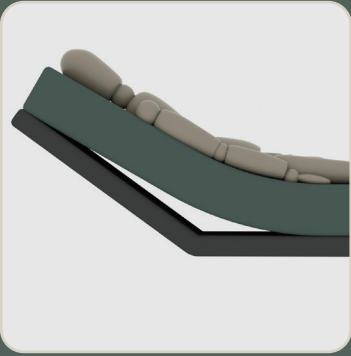

Flat Position

Returns the bed to a completely flat surface, ideal for traditional sleeping or effortlessly getting in and out.

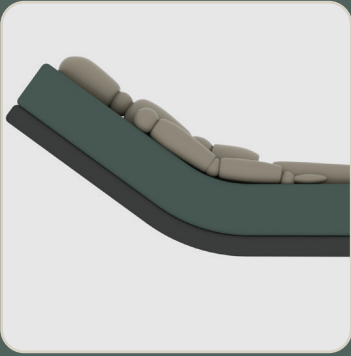

BEDS & FUNCTIONS

Smart Features for Better Living

The innovative GEO Curve design features two closely positioned articulation points, creating a gentler curve compared to traditional adjustable beds with a single hinge. This allows the mattress to flex more naturally, reducing material stress while delivering improved body conformity, pressure relief, and overall comfort. With modern smart tech—including targeted Head Tilt, relaxing massage, ambient LED lighting, and USB charging—for personalized wellness at the touch of a button.

Theraflex

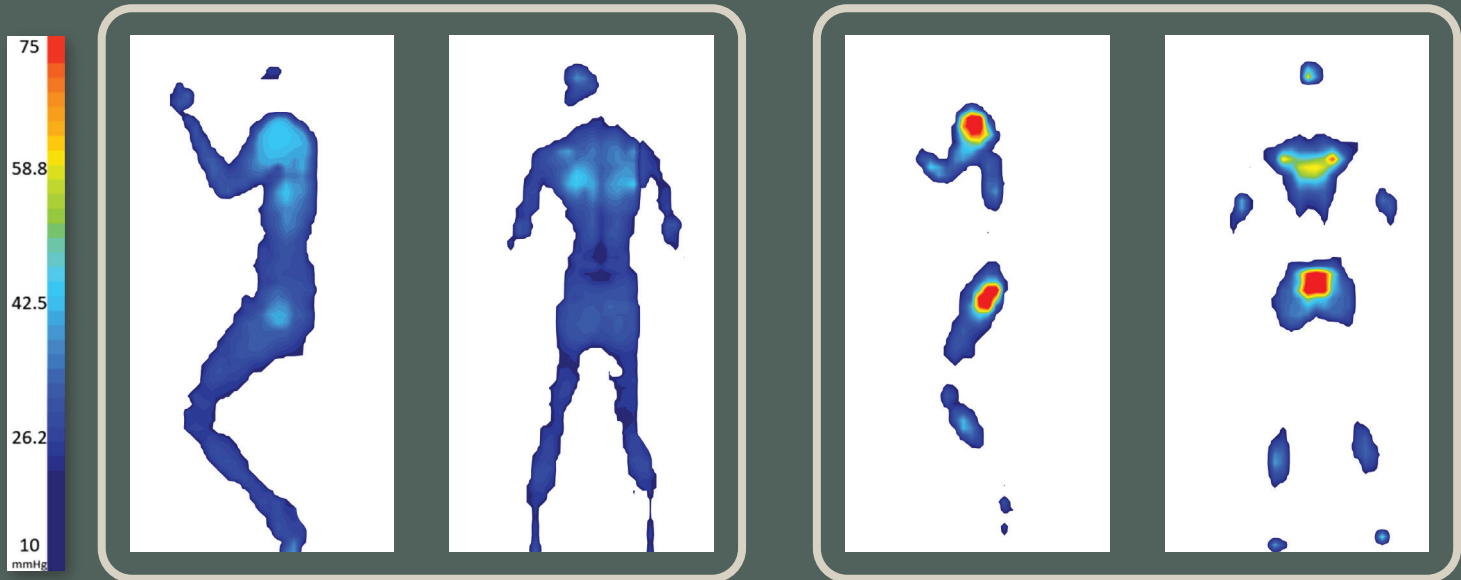

T-Series Mattress Collection

A premium adjustable bed requires a mattress engineered to match its capabilities. The Theraflex T-Series—comprising the T15, T20, T25, and T30—is specifically designed to flex and conform seamlessly with our adjustable bases without compromising structural integrity or support.

Ranging from the robust firm support of the T15 to the advanced cooling plushness of the Viscoool® and Graphene-infused T30,

each model features a specialized anti-slip base and reinforced edge support. As demonstrated by our clinical pressure mapping, the layered premium foams effectively distribute body weight. This targeted pressure reduction enhances circulation, minimizes tossing and turning, and delivers a restful sleep tailored to your exact comfort preference.
